

WHAT IS YOUR NORTHWOODS: PERSONALITY

Northwoods Wannabe Winter Itinerary

Your first stop in Langlade County should be the Antigo/Langlade County Chamber of Commerce to pick up maps, community information and useful advice on family-friendly activities, attractions and trails. We can give you some great suggestions on everything from places to go fishing to the best place to get the perfect souvenir.

Day 1

Morning

The air outside is cold as the snow falls as you wake up in the **lodge**. It's a perfect day to make the pancakes and sausage you picked up at the **grocery store**, then head out into the winter morning.

Mid-Day

After breakfast break out the swimming suits! That's right bring your towels, swimming suits, and goggles to the **Clara R. McKenna Aquatic Center**. The facility has two pools that are open to the public every day of the week, and there's nothing quite like swimming in warm water as you watch the snow fall outside. Spend a few hours relaxing in the pool before heading back out into the winter wonderland.

Evening

There are always hot drinks and welcoming smiles at the **local watering holes** for a good, filling meal. When you've finished eating, enjoy a beverage at the bar and spend a few hours talking to the locals.

Day 2

Morning

As you step outside to find breakfast you can see your breath in the cold air. The sun is shining brightly off the new snow as you head to an area **restaurant**. From a quiet out-of-the-way place to one of the most happening early morning breakfast spots in the county, we have something for you.

Mid-Day

Depending on when you plan to visit, you can enjoy any number of local events. In December come to downtown Antigo for the Community Christmas Parade. January brings the annual sled dog races. Or watch the hearty souls plunge into the ice cold water of a local lake in February. If you are coming late in the season, you can enjoy the annual St. Patrick's Day parade that is a huge draw in Langlade County. Pick one of these events, or check out the **calendar of events** to find an event that excites you.

Evening

When you warm up from your day outside it's time to consider dinner. You can enjoy a meal next the fireplace at one of the **dining establishments** in the county. Choose one of the amazing meals they offer. You can have steak, fish, pizza, sandwiches, or pasta.

Day 3

Morning

Today's the day! Get up and grab a quick breakfast to start the day off right. Many **restaurants** in the area offer just that, a quick breakfast at reasonable prices. Visit one of their dining rooms and enjoy a sit-down meal, or grab something on your way through town and eat on the go. Either way, you're sure to enjoy the food and customer service you receive.

Mid-Day

Pack up your gear, dress warmly, and head out on the ice for a day of **ice fishing** on one of the hundreds of lakes throughout the county. It might get a little chilly, but the rewards are definitely worth it when the fish are biting. Some popular fishing spots include Post Lake, Pickerel Lake, and White Lake. If the fish are not biting, there's always someone to talk to on the ice. Just make sure the ice is completely frozen, and avoid areas that do not look solid or completely frozen.

Night

There's nothing like a fresh caught fish fry for dinner after a long day on the ice. Turn your kitchen into the next best restaurant in Langlade County with the "Catch of the Day" special and all.
